M(F)

Sr. No 147723 1/N (9) 9880

Under G.L. No FLD 1053/19429 F dt. 6-7-55 orders have been issued to disforest land measuring 23 acres and 34 gs. out of F.S. No 38 of Golisreff ital Bagalkot and to grant it to Shri R.I. Jamkhandi subject to the conditions mentioned in Para 2 of the G.L. referred to above. Shri J. has now represented to Govt. that condition No (1) and (ii) shd. be modified as below for the reasons stated in his appl.:

i) the width of the belt may be increased from 50' to 150' and

ii) the trees in the remaining area be granted to him only and the words " or by sale to the best advantage of the Deptt" may be omitted.

2. As req (i) above, the C.C.F. has stated that if the 150' wide belt is not disforested the tree growth in the area would remain with the Forest Deptt. and serve as a protective belt against soil erosion and also serve the departmental purpose of raising wet nurseries. The C.C.F. recommends that a belt of 150' width along river bed may not be disforested and granted to Shri Jamkhandi. This may be agreed to and the G.L. may be modified accordingly.

If 'A' above is accepted, the question of disposing the tree growth will not arise as almost all the tree growth comes within the proposed increased belt.

The letter and draft G.L. may issue after ker to RD/RD. 31/12

From:-

Shri. Rahimatbeg Ismailbeg Jamkhandi,
of Bagalkot, District:- B I J A P U R.

To,

The Deputy Minister for Agriculture and Forest,
Bombay State, Bombay.
B O M B A Y.

Sir,

With reference to the letter No. F.D.L.1053/19429 E dated 6th July 1955 from the Assistant Secretary to the Government of Bombay, Agriculture and Forest Department addressed to the Chief Conservator of Forests Poona, granting me a area of 25 Acres and 34 Gunthas of Forest S.No. 38 of Galaskop Taluka Bagalkot, after diaforesting the same, I pray for a modification of conditions (i) and (ii) for the reasons mentioned below:-

2 Condition (i):- The idea underlying condition No. (i) is no doubt, the prevention of erosion of the soil by the floods of the fiver, but the purpose will not be - - served, in full thereby, for the reason that the width of the proposed belt is inadequate at a distance of at least 150 Ft to 250' in some places on the river bank, and during floods even a portion of the cultivable area beyond 150 Ft. gets submerged for a time. I have - - therefore planted and grown trees in a belt of 150 Ft. to 250' with the sole object of preventing erosion during the last 12 or 13 years. The width of the belt may therefore please be ordered to be increased to 150 Ft with a view to achieve the object in view.

3 Condition (ii):- It is ordered in condition (ii) that the trees grown in the remaining area shall be disposed of by the Forest Department either by grant to me or by sale to the best advantage of the department. I beg to submit that in the remaining area also, the trees were planted tended and grown by me only at a considerable expense in addition to much manual labour. Normally the trees are granted to persons who so plant, tend and grow them. The trees may as such be granted to me only and the words " or by sale to the best advantage of the Department " may kindly be deleted.

C.F.S.C. for reports

The main object in planting and preserving these trees in the belt of 150 Ft. to 250' and beyond is the prevention of ereeton on the river bank and part of the cultivable area. Further more,

(a) These trees if preserved will lead to the growth of grass and other fodder material on the river bank and other portion of the land and this fodder will provide good and healthy food to tend and feed my - - cattle. I maintain about 8 cows, 6 calves, 6 She-buffalowes, ~~for xxixxx and~~ four calves and 6 bullocks. If these trees were sold to out-siders, this source of grass and fodder supply will vanish.

(b) I maintain in all 130 sheep and twelve goats. The babul and other trees grown by me on the two banks will be a permenent source of good supply to the sheep and goats maintained by me.

(c) There are some fruit trees amongst them such as Temarind, for Feromia trees. The fruit yield of these trees will be to my advantage and will be a good return for the labour and money invested by me in planting and preserving many of them.

(d) The said trees will also be useful to me as they provide shade to the labourers during and after working hours and for the cattle.

(e) It is consistent with the ~~pi~~ policy of the - - - Government that these trees should be granted to me since I have planted and preserved these trees from year to year and will continue the plantation and - - preservation in future. If these trees are sold by the department to out-siders, they will remove them by indiscriminately, cutting them without the least thought of their utility to me for preventing erosion which is the main object in growing these trees and the fodder and grass will also be lost.

4. In case the Department decides to dispose of or sell these trees, not-with-standing my humble submission as above, they may be sold to me obly, at a reasonable price. Otherwise,

all my trouble, and all my investment will be wasted. The trees to be granted or sold to me will be as per list of the Range Forest Officer, Bagalkot on 11-6-1955.

5. In view of the foregoing, I request your honour to - - amend conditions (i) (ii) as prayed for above at your earliest convenience.

Thanking you,

Yours faithfully.
R.I. Jamakhandi

2. Government is pleased to direct that an area of 23 acre and 34 gunthas out of Forest Survey No. 38 of Goliskop, taluka Bagalkot should be disforested and granted to Shri. R.I.Jamkhandi Jamkhandi, subject to the following conditions:-

(i). The tree groth existing along the river bed, a belt of 50' wide should be reserved to prevent erosion.

(ii). The tree groth in the remaining area shall be disposed by the Forest Department either by gant to Shri. -- Jamkhandi or by sale to the best advantage of the department.

(iii). The sandalwood trees and saplings shall be reserved to the Forest Department till they are extracted as and when they mature, the grantee being resposible to preserve them.

(iv). The grantee should give all facilities for maintaining the nurseries in a plot of 6 gunthas as demarcated in the sketch, viz.,free water supply as he is doing.

3. The remaining area of 29 acres and 4 gunthas should not be granted to any body as it contains tree growth as already directed in Government Letter No. FLD. 1053/37376-J-dated the 7th .October, 1953.

The case papers are returned herewith.

By order and in the name of the Governor of Bombay.

Subject:- Cultivation of Forest land at Goliskop, Taluka Bagalkot, District Bijapur, by Shri.R.I. Jamkhandi.

No.17/D/SG/52/ A/4500 of 1955-56.
Poona No.1, 6 December,1955.

CULTURE & FOREST DEPT.
Receipt (7)
7 DEC 1955
No. 0
No. E-14723

Submitted to Government in the Agriculture and Forests Department, Bombay.

2. Shri.R.I. Jamkhandi in his application dated 26-8-1955 requests that :

" (i) the width of the belt may please be ordered to be increased to 150'.

and

(ii) the trees in the remaining area be granted to him only and the words "or by sale to the best advantage of the Department" may be deleted. "

3. From the Conservator of Forests, Southern Circle's report it will be seen that if the 150' wide belt is not disforested the tree growth in the area would remain with the Department and serve as a protective belt against Soil erosion and also serve the departmental purpose of raising wet nurseries. In view of this, a belt of 150' width along the river bed may not be disforested and granted to Shri.Jamkhandi.

4. As regards the 2nd request of Shri.Jamkhandi, from the Conservator's report it will be seen that, if the width of belt is increased from 50' to 150', almost all the tree growth comes within this belt and as such the question of disposing the tree growth does not arise.

(J.A.Singh)
Chief Conservator of Forests,
State of Bombay.

17 (21)

Below No.C/1081 dated 23-10-1955 from the Sub-Divisional Forest Officer, Bagalkot.

.....

Subject:-Forest land. Grant of - modification in terms of ---

No.22/245/ 2784 of 1955-56.
Belgaum, 9/11 November, 1955.

p11/c

Forwarded with compliments to the Secretary to Government, Agriculture and Forests Department, Bombay, with reference to his No.FLD.1055/105458-E of 9-9-1955.

2. The request of the applicant to increase the width of the belt from 50' to 150' may be considered in view of the circumstances explained by the applicant. In fact it would have been better in the interest of soil conservation if this belt along the bank was not disforested and the tree-growth therein was kept in tact as it is reported by the Sub-D.F.O. that almost all the tree growth comes within the belt if it is extended to 150'. It is also now reported by the Sub-D.F.O. that there is no other suitable area in Bagalkot Range for raising permanent nurseries for Vanamahotsava and other departmental works. It is therefore felt necessary to keep the belt in charge of this Department for raising nurseries at suitable places. It can be seen from the application that the area coming within the above belt is not under cultivation.

From the Sub-D.F.O's report it can also be seen that the contention of the applicant that he planted and tended the tree growth is not true as the tree growth marked existed at the time of the original grant. The tree growth outside the belt which is of Government ownership cannot therefore be granted free of charge to the applicant. The same may be granted to him at the estimated value this Department shall fix.

If the 150' belt is not disforested the tree growth in the area would remain with the Department and serve as a protective belt against soil erosion and also serve the departmental purpose of raising wet nurseries. This is now being felt more and more necessary, owing to the fact that for the annual Vanamahotsava and also for meeting a very large number of plants and seedlings required for the afforestation works in the Bijapur District under the IInd Five Year Plan.

The application with its accompaniments is enclosed herewith.

RRChaudhari

(R.R.Chaudhari)
Conservator of Forests, S.C.

Through
the Chief Conservator of Forests, B.S.Poona, w.cs.

cutting of junglewood trees is required in this District.

4. Taking all these into consideration, I recommend that the conditions imposed by Government in their letter No. (A. & F.D.) FLD 1053/19429-E dated 6-7-1955 may kindly be modified as under if deemed fit.

i) the tree growth existing in the plot should be sold to the grantee at the rates prescribed by the Conservator of Forests, S.C., which are normally charged for the contractors of the coupes for the damaged trees. These rates should be as under:-

trees under 12" in girth	0-12-0	each.
" 12" to 18" girth	1- 0-0	"
" 18" to 24" "	1- 4-0	"
" 24" to 36" "	2- 8-0	"
" 36" to 48" "	6- 4-0	"
" 48" and up in "	9- 6-0	"

(The rates prescribed for this Sub Division coupes are somewhat less since these rates are applicable to inferior tree growth available in the rocky areas, while the tree growth in this plot is along the river and growing in black cotton soil.)

However if these rates are not sanctioned the tree growth may be sold to the grantee at the flat rate of Rs. 3/- per tree, the rate of which has already been ordered to be charged from the same grantee for the missing junglewood trees in his plot.

ii) the lessee in his own interest should preserve the tree growth to prevent erosion, permission for removal of trees will be granted by the Forest Dept. only in case of dead trees, which should be shown to the Forest Department before cutting.

iii) the sandalwood trees and saplings shall be reserved to the F.D. till they are extracted as and when they mature, the grantee being responsible to preserve them.

iv) the grantee should give all facilities for maintaining the nurseries in a plot of 2 acres viz. free water supply as he is doing at present for 6 gunthas.

The condition No. iv) above is essential in view of the fact that 6 gunthas area is too small for the purpose and there is no other suitable area in the whole of Bagalkot Range for raising a permanent nursery. Recently according to the instructions issued by the Conservator of Forests, S.C., in his No. 24/77(54-55)/6939 of 5/7-8-1955, at least 2 acres nursery is to be raised in each Range, it is therefore essential for supplying adequate No. of seedlings that 2 acres area is reserved for the purpose.

5. The accompaniments received are returned herewith.

(M. S. Khanchandani.)
Sub Divisional Forest Officer,
Bagalkot.

(12) Triplicate.

Subject:- Forest land. Grant of - modification in terms of --

No. C(18) of 1955-56. Bagalkot, 23rd October 1955.

To,

The Conservator of Forests,
Southern Circle, Belgaum.

Ref:- Your No. 22/245/9277 of 15/16-9-1955.

An area of 24 acres out of Forest S.No. 38 of Goliskop has been granted to Shri. R.I.Jamkhandi from 1943 for the first 3 years on agri silvi cultivation and from the year 1947 on Hangami Lagan cultivation. Out of this 24 acres, 6 gunthas are being utilized by this Department for nursery purposes and Shri. R.I.Jam--khandi has to supply free water facilities for the purpose. The remaining area of 23 acres and 34 gunthas have been now ordered to be disforested and granted to Shri. R.I.Jamkhandi (vide Govt. letter A. & F.D.No. FLD 1053/19429-E dated 6-7-1955) under the following conditions:-

i) the tree growth existing along the river bed, a belt of 50' wide should be reserved to prevent erosion;

ii) the tree growth in the remaining area shall be disposed by F.D. either by grant to Shri. Jamkhandi or by sale to the best advantage of the department.

iii) the sandalwood trees and saplings shall be reserved to the F.D. till they are extracted as and when they mature, the grantee being responsible to preserve them.

iv) the grantee should give all facilities for maintaining the nurseries in a plot of 6 gunthas as demarcated in the sketch viz. free water supply as he is doing.

2. The applicant in his present application has requested the Government to waive the first two conditions i.e. he has re--quested that all the tree growth should be granted to him free, since according to him, he has planted, reared and preserved the trees. He further requests that if the tree growth cannot be granted free the same should be sold to him only at reasonable price after reserving the tree growth in a belt of 150' to 250' in width instead of the present 50', directed by the Government, since according to him the belt of 150' to 250' is necessary to prevent the soil from erosion and if the remaining tree growth is sold to outsider i.e. to highest bidder the same will be cut indiscriminately thereby putting the land under constant threat of erosion and depriving the present grantee of shade and other yield of these trees.

3. I have to offer my remarks as under:-

I do not agree with the contention of the applicant that he has planted and reared the trees. No doubt he has planted some fruit trees, some other auxillary trees but the same are not enume--rated in the list prepared by this Department. Whatever the lessee has done is for his own good and the list of trees prepared by this Dept. shows only those which existed at the time of original grant of land. There is therefore no reason why the tree growth should be given to him free of charge. I however agree with the second condition of the applicant that wider belt of reserved trees is necessary to achive the desired object of soil conservation. It is also fact that if the tree growth is sold to the highest bidder he will naturally cut the same indiscriminately. From the actual enumeration it is found that there are at present 452 junglewood trees (of Govt. ownership) and out of this about 350 trees fall in the ~~[illegible]~~ prescribed belt of 50' and the remaining about 100 trees only are found else where in the plot. If this belt is increased in width as requested by the applicant practically all the trees will go in the belt. Government orders in this respect are not how-ever clear to me. Since it is not known as to who will be respon--sible for the preservation of the reserved trees in the belt since F.D. will have no control over the plot and no permission for -

From,

R.I.Jamkhandi, Esq,
Bagalkot. Dist. Bijapur.

To,

The Assistant Secretary to the Government of Bombay.
Agriculture and Forest Department,
Bombay.

Subject:- Grant of modifications in conditio ns of Survey NO.38 of Golaskop Taluka, Bagalkot.

Sir,

With reference to your letter NO.O/147723 dated the 4th February 1956, I have the honour to state that your orders not to disforest a belt of 150 ~~Fett~~ Ft width along the Ghataprabha river bed may kindly be reconsidered on the following grounds:-

(1) In the said letter you have been pleased to order that with a view to prevent erosion a belt of 150' width should be reserved and not to be disforested. It is my submission that even in this proposed belt of 150' width ~~XXXXXXXXXXXXXX~~ as also in the remaining area leased out to me, I have planted and grown Xvarious fruit trees during the last 14 years and my main object all along has been to prevent erosion. So the fruits or yield from these trees should not be auctioned but should be sold to me for a nominal price from year to year permanently. The Divisional Forest Officer Dharwar Bijapur Division has informed me under his NO.G/6440 of 1946-47 dated 8/10-1-1947 that the R.F.O.Bagalkot has been informed to exclude the part of Golaskop S.NO.38 leased out to you for Tamarind and Babul pods from the sale. A copy of the above letter is herewith enclosed.

(2) The main ground assigned by you for not disforesting a belt of 150' width is to prevent erosion. It is my humble submission that erosion cannot be prevented merely by retaining these trees as proposed. A number of other operations will have to be undertaken to effectively prevent ~~XXXXXX~~ erosion.. As and where necessary, small bunds and frames of shrubs and bushes will have to

be constructed in vantage points and this process has to be repeated every year to prevent erosion. As experts in these matters you are better aware of these preventive measures, which can be better undertaken and carried out by me than by Government agency. I am better and more interested in the prevention of erosion. Since any neglect in this matter will seriously affect my own individual interest in the remaining area, and lead to waste in the cultivable area also. So, it it is my humble request that your orders under reference not to disforest the said area of 150' width may kindly be modified and the trees grown on this and the remaining area may be given to me for a reasonable price.

(3) I hereby undertake to preserve these trees as long as they last and not destroy or cut them down.

I further beg to submit that in the belt of 150' width now proposed to be reserved, there will be sumtuous growth of grass and other fodder material which will provide good and healthy food to my cattle, sheep, she-buffaloes and bullocks etc which I have maintained all along. In view of the Government policy of helping the agriculturists to rear and tend good and healthy breed of cattle etc, I request you that the said belt also should be disforested or in the alternative, I may be allowed to feed my cattle etc in the said belt.

(4) By this time the whole of the said S.NO.38-part of which has been granted to me on lease, has been almost distributed amongst the Harijans and other Backward classes and no purpose will be served in reserving only a belt of 150' width along the river bed as it will completely dry up the only source of grass and fodder supply to my cattle etc.

So the said belt of landmay kindly be disforested as prayed above.

Yours Faithfully,

R. G. Ganthkand

Bagalkot.

L E T T E R.

Subject:-Grant of land at Golaskop Taluka Bagalkot to Shri R.I.Jamkhandi.

No. 22/245/ 212 of 1957-58.
Belgaum. 30 April 1957.

To

The Chief Conservator of Forests
in Mysore, B A N G A L O R E.

Ref:-Chief Conservator of Forests, State of Bombay, Poona's No.17/D/SG/52/A/2262 dated 14th June 1956.

The Government of Bombay in their letter, Agriculture and Forest Department No. 1053/19429-E dated 6th July 1955 have directed that an area of 23 acres and 34 gunthas out of Forest Survey No.38 of Golaskop, Taluka Bagalkot should be disforested and granted to Shri R.I. Jamkhandi subject to the following conditions:-

i) The tree-growth existing along the river bed, a belt of 50' wide should be reserved to prevent erosion.

ii) The tree-growth in the remaining area shall ~~also~~ be disposed of by the Forest Department either by grant to Shri Jamkhandi or by sale to the best advantage of the Department.

iii) The sandalwood trees and saplings shall be reserved to the Forest Department till they are extracted as and when they mature, the grantee being responsible to preserve them.

iv) The grantee should give all facilities for maintaining the nurseries in a plot of 6 gunthas as demarcated in the sketch viz. free water supply as he is doing.

2. The applicant Shri Jamkhandi then requested the Government to waive the first ~~w~~ two conditions i.e. he had requested that all the tree growth should be granted to him free, if not, at a reasonable price and that the width of the belt be extended from 50' to 150'. In view of this, the Government in their letter No. 0/147723-E of 4-2-1956 have directed that the strip of 150' along the river bed should not be disforested and granted to Shri R.I. Jamkhandi and the tree-growth therein should not be disposed of as proposed under this office No. 22/245/2784 dated 9th November 1955. The applicant being not satisfied with the above Government decision submitted the present application in question to Government to reconsider the above orders on the following points:-

i) That he has planted and raised many fruit trees in the belt during the last 14 years with the object ~~of~~ preventing soil erosion.

ii) That the erosion of soil cannot be prevented merely by retaining the belt and the trees therein; but a number of other operations will have to be undertaken. He is more interested in preventing soil erosion or else it will seriously affect his own individual interest in the remaining cultivated area.

iii) That he shall undertake to preserve the trees in the belt as long as they last and not distroy or cut them down.

P.T.O.....

iv) That the area contains good growth of grass and fodder which will provide good and healthy food for his cattle.

v) That simply reserving the belt will not serve any purpose as it will completely dry up in summer.

3. It has now been reported by the Sub-Divisional Forest Officer, Bagalkot that the applicant has planted and reared 90 mango, many lemon trees in the strip and has raised sugar-cane also. Apart from this, it is reported that he is planting trees of Babul, Hulgul and other reverain trees along the bank of the river and has put in several small bunds all along the bank in order to prevent further erosion of soil. It is also reported that he is planting reverain shrubs and grass. It is now reported by the Sub-Divisional Forest Officer, Bagalkot that the cultivation starts beyond 66' from the bank as shown in the accompanying sketch. In view of these, there appears to be no objection to disforest the belt of 150' along the river in favour of Shri Jamkhandi on the following conditions:-

i) The grantee shall not extend cultivation further towards the river.

ii) He shall fix 5 permanent cement concrete posts on the periphery of cultivated area so that he shall not extend cultivation further towards the river.

iii) He shall keep the strip in between the river and his present field crop demarcated by the cement concrete posts under tree growth only and no ploughing or raising of field crop therein should be done.

iv) He shall not fell any living trees in the belt of 66' along the river and before felling of dead trees if any, the permission of the Sub-Divisional Forest Officer, Bagalkot should be obtained in writing.

v) He shall pay full value of the trees (except sandalwood trees) in the whole area as fixed by this Department. The trees outside the belt may be felled by him for his own domestic use on obtaining necessary permission from the Sub-Divisional Forest Officer, Bagalkot.

vi) The sandalwood trees in the area should be preserved by the grantee till they are extracted as and when they mature.

vii) The grantee should give all facilities for maintaining the nurseries in the plot of 6 gunthas which will be selected near to the lift irrigation well.

4. The accompaniments received under your No. B3-46-1474/56 dated 7th January 1957 are enclosed herewith.

D. Sherwa.
Forest Surveyor,
Bagalkot Sub Dn.

From.:-

R.I.Jamakhandi, Esq.,
Bagalkot Dist. Bijapur.

To,

The Assistant Secretary to the Government of Bombay
Agriculture and Forest Department, Bombay.

Subject.:- Grant of modifications in conditions of Survey No.38 of Golaskop Taluka Bagalkot.

Sir,

With reference to your letter No. O/147723 dated the 4th February 1956, I have the honour to state that your orders not to disforest a belt of 150 Feet width along the Ghataprabha river bed may kindly be reconsidered on the following grounds.

1. In the said letter you have been pleased to order that with a view to prevent erosion a belt of 150 Feet width should be reserved and not to be disforested. It is my submission that even this proposed belt of 150 Feet width as also in the - remaining area leased out to me, I have planted and grown - - various fruit trees during the last 14 years and my main obj all along has been to prevent erosion. So the fruits are yield from these trees should not be auctioned but should be sold to me for a nominal price from year to year permanently The Divisional Forest Officer Dharwar Bijapur Division has - - informed me under his No. G/6440 of 1946-47 dated 8/10-1-1947. that the R.F.O. Bagalkot has been informed to exclued the part of Golaskop Survey No. 58 leased out to you for tamarind and dabul pods from the sale. A copy of the above letter is herewith enclosed.

2. The main ground asigned by you for not disforesting a belt of 150 Feet width is to prevent erosion. It is my humble submission that aerosion cannot be prevented mearly by retaining these trees as proposed. A number of other operations will have to be undertaken to effectively prevent erosion. As and where necessary, small bunds and frames of shrubs and bushes will have to be constituted in vantage points this - - process has to be repeated every year to prevent erosion. As experts in these matters you are better aware of these preventiv measures, which can be better undertaken and carried out by me than by Government agency. I am better in more interested in

in the prevention of ehesion. Since any niglect in this matter will seriously affect my own individual interest in the remaining area, and lead to waste in the cultivable area also. So, it is my humble request that your order under reference not to disforest the said area of 150 feet width may kindly be modified and the trees grown on this and the remaining area may be given to me for a reasonable price.

3. I hereby undertake to preserve these trees as long as they last and not destroy or cut them down.

I further beg to submit that the belt of 150 feet width now proposed to be reserved there will be a luxuous growth of grass and other fodder materials which will provide good and health food to my cattle, sheep she-buffeloes and bullocks etc. which I have mentained all along. In the view of the Government policy of helping the agriculturists to reed and Dend good and healthy breed of cattle etc. I request you that the said belt also should be disforested are in the alternative I may be allowed to feed my cattle etc. in the said belt.

4. By this time the whole of the said survey No. 38 part of which has been granted to me on the lease has been almost distributed amongst the Harijans and Backward classes and no purpose will be serve in reserving only a belt of 150 feet width along the river bed as it will completely dry up the only source of grass and fodder supply to my cattle etc

So the said belt of land may kindly be disforested as prayed above.

Sd/- R.I. Jamkhandi

Yours faithfully.

BAGALKOT.
